

SIZE CHARTS

LUMINOUS RAY

To find your correct size, first refer to your current shoe size.

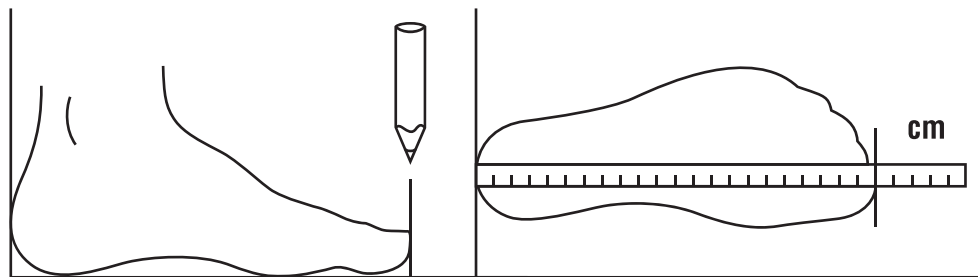

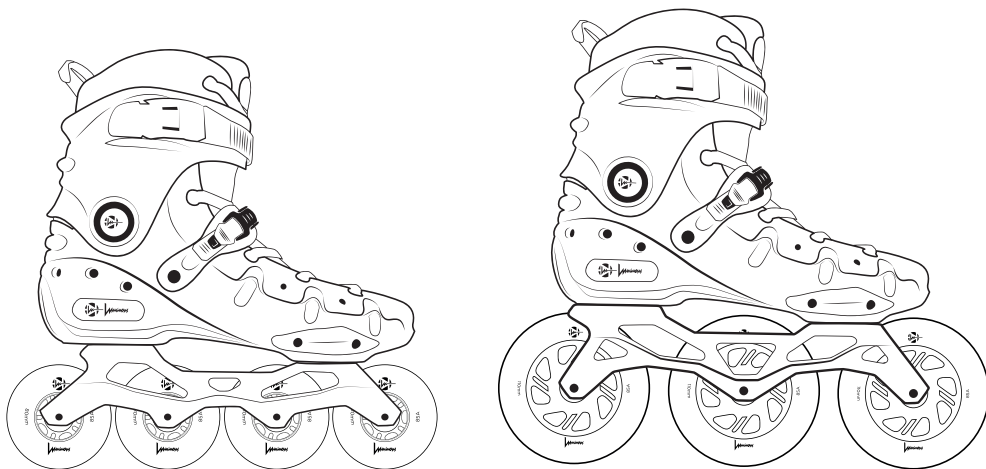

For a more accurate measurement, use this method:

Place a sheet of paper against a wall on a hard surfaced floor.

Place your heel against the wall and outline your feet one at a time.

Measure the distance from heel to toe in centimeters.

Use the longest measurement to match your best fit on this size chart.

CHECK FOR PROPER FIT

When trying on the skates, the toes shouldn't be pressed against the front of the skate and should lay flat.

Toes can touch slightly the front of the skates, without pressure point.
